For weekly PDFs, supplemental materials, and class videos

Each class will be video recorded and available to view within 48 hours of class. You will have permanent access to the course videos.

Transit astrology is the living practice of psyche. Personal transits are our on-going conversation with the Universe. Learning the technique to accurately know when transits are happening helps you better participate with your life and make informed decisions as you both plan for the future and understand your past. Transit astrology teaches us to better dance to the archetypal timing of our lives.

Break-out groups meet weekly. The group leader hosts the meeting. The group is responsible for finding a time to meet and covering assignments from each week together. Cover weekly assignments, ask questions, share what is happening in your process around class material. 1-2 hours per week.

Assignments are due by the time class meets. All Transit Journal assignments should be shared in your small groups. Jessica will demonstrate each assignment the week before it is due. You will need a calendar to mark transit dates.

You will need an astrology program that can calculate personal transits. If you do not already have one, I recommend www.astrogold.io

Week 1: April 11

- Opening Invocation | Introductions
- Review Syllabus
- Class rules and guidelines
- Define Personal Transits
- Energy both ways between 2 planets – relationship – field of energy
- Technical – orbs of influence for natal, personal, world transits; orbital periods; duration of each transit
- Out of sign transits
- Meaning of 5 major aspects – 15-minute supplemental video

Demonstrate Assignment for next week.

Assignment 1 Due:

- Review Fundamentals Guide.
- Commit to memory the following: Each degree of each planet in your natal chart; all orbs of influence for natal chart, world transits, and personal transits.

Week 2: April 18th

- Technical – world transits are personal transits – largest frame of reference; clients tend to ask about what is happening in world, and this relates to personal transits (e.g. right now all Uranus transits are also Saturn transits due to the current square).
- Out-to-In (castle analogy) – holding the largest frame → order of importance, significance, and impact
- Quadrature alignments of transits
- Sequence of aspects (conjunction, sextile, waxing square, trine, opposition...)
- Retrograde motion vs. direct motion

Demonstrate Assignment for next week.

Assignment 2 Due:

- Write-out dates, using the orbs indicated, for all of your current outer planet transits of Saturn, Uranus, Neptune, and Pluto to all points of your natal chart by the five major aspects.
- Commit to memory the range of degrees in which Saturn, Uranus, Neptune, and Pluto pass during 2021. Be aware when the outer planets are in direct versus retrograde motion – write out these dates.

Week 3: April 25th

- Order of significance (out-to-in) – maintain perspective
- Universal transits – locate a person pre- or post- a transit, meaning (e.g. Saturn Return)

- Sequence of planets in natal chart by degree number → sequence of transits; karmic meaning of this unfolding story
- Simultaneous transits – recognize, relative importance, meaning & interpretation (Interpreting multiple transits at once – outer planets to inner planets)

Demonstrate Assignment for next week.

Assignment 3 Due:

- Write-out dates, using orbs I gave you for first and second Saturn return, Uranus opposition, Neptune square Neptune, Pluto square Pluto. Mark on calendars significant time periods.
- Commit to memory orbital periods of all planets and duration of transit.

Week 4: May 2nd (layering...)

- Outer planet transits activated by inner planet transits (MO, SU, ME, VE, MA)
 - e.g. Neptune conjunct Venus = 5-year transit; 5 VE returns during that time
 - New Moons and Full Moons, eclipses
- Planetary Returns (planets transiting themselves) – frequency
- Quadrature alignments of all planets to themselves
- More specific dates for beginning and ending of transits – patterns and intuition

Demonstrate Assignment for next week.

Assignment 4 Due:

- Write-out your outer planet transits for next decade (outers to your natal chart).
- Write out the sequence/order you go through your personal transits.
- Begin tracking the Moon cycle for one whole month. Understand its rhythm and pacing and the order the Moon activates all the areas of your natal chart.
- Commit to memory how long each planet is in retrograde motion per year.

Week 5: May 9th

- Phases of transits – “Window effect”
- Perfections (exactitude) versus a systems view of transits
- Waves of transits
- How to recognize a transit has begun and has completed – identifying signifying events and appreciating their symbolic meaning – examples
- Operative time span – how understanding this benefits us in our process and understanding of life events; (wave, not perfection)
- How transits feel in our lives

Demonstrate Assignment for next week.

Assignment 5 Due:

- Refine earlier outer planet transit dates by looking at inner planet activators and the unique specifics of your natal chart – example. Current moment in life reflection of transits – journal.
- Commit to memory years of your first and second Saturn return, your Uranus opposition, and mid-life transits.

Week 6: May 16th

- Understanding and integrating the past through transits
- Mapping Psychological Development over a lifetime – pre- or post- Saturn Return, pre- or post- Uranus opposition, etc. – understanding how a person has responded to previous transits to contextualize current and future transits
- Assessing whether a person has learned and integrated previous transits
- World transit alignments same as in natal chart – archetypal resonance

Demonstrate Assignment for next week.

Assignment 6 Due:

- Choose one significant time/event in life and write-out transits – journal.
- Commit to memory the major outer planet world transits for the next 5 years.

Week 7: May 23rd

- Timing events (electional) – what to be aware of, pros and cons
- Ritualizing transits; recurring transits
- Transit moving into new house | new sign

Demonstrate Assignment for next week.

Assignment 7 Due:

- Plan one upcoming event (within next year) with your personal transits. Choose specific date, demonstrate how you chose the date and why, and what it personally means to you. What is your intention and goal with this event and the timing of it? – journal.

Week 8: May 30th

- Closing Circle
- Review Course
- Closing Questions

Assignment 8 Due:

- Choose one thing in your life to change right now based on what you understand now about yourself, your natal chart, and your past, current, and future transits. Ritualize this moment. Take action! Be accountable by sharing with your group members and check back in within one month of the course with one another to be witnessed – journal.
